   **Center:** Center Related  
   **Core Investigator:** Steven K. Dobscha, MD

   **Abstract:** Musculoskeletal disorders (MSD) are highly prevalent, painful, and costly disorders. The MSD database was created to characterize variation in pain, comorbidities, treatment, and outcomes among patients with MSD receiving Veterans Health Administration (VHA) care across demographic groups, geographic regions, and facilities. This national database is a rich resource for collaborative pain-relevant health service research.

   **Center Author(s):** Morasco, B  
   **Center:** Center Related  
   **Core Investigator:** Steven K. Dobscha, MD

   **Abstract:** Patients with chronic pain and comorbid substance use disorder need more intensive interventions than usual care in order to attain clinically significant improvements in pain-related function. Morasco and colleagues developed a manual specifically designed to provide integrated treatment of substance use disorder and chronic pain in patients with hepatitis C.

Center Author(s): Pfeiffer, C

Project: CRE 12-289, Building an Optimal Hand Hygiene Bundle: A Mixed Methods Approach

Pl: Heather S Reisinger, PhD

Abstract: The Oregon CRE Toolkit is designed as a practical working document to aid all health care workers most likely to be involved with carbapenem-resistant Enterobacteriaceae prevention, detection and treatment across the continuum of health care. This group would include infectious diseases physicians, health care epidemiologists, infection preventionists, directors of nursing of skilled nursing facilities, nurses, microbiologists and local health department personnel.

Pl: Christopher G. Slatore, MD, MS

Link To PDF: https://www.thoracic.org/about/ats-podcasts/lung-cancer-screening-implementation-a-serial-discussion.php

Abstract: A series of short podcasts that will highlight important concerns and considerations surrounding lung cancer screening implementation. Discussions were guided by the recent statements from the ATS and ACCP regarding screening with an added focus on screening issues that happen in the real world.
